## Professional Summary

AI/ML and Frontend Developer building web and mobile applications with React Native, Next.js, TypeScript, Python, PyTorch, and TensorFlow. Experienced in Siamese Neural Networks, explainable AI, data classification, and Shopify Liquid theme development, with AI workflow automation using n8n and APIs. Led and developed systems for handwritten signature verification, emergency response, and automated content generation, including a national hackathon First Runner-Up project.

## Education

**Laguna State Polytechnic University – San Pablo City Campus** — San Pablo City, Laguna
Bachelor of Science in Computer Science, Major in Intelligent Systems — Expected 2027
**Thesis:** AVERA: Assistive Android Application for Handwritten Signature Verification Using Siamese Neural Networks with Explainable AI
**Relevant Coursework:** Object-Oriented Programming, Web Development, Data Structures and Algorithms, Database Management Systems, Introduction to AI and Machine Learning, Intelligent Systems, Cybersecurity Fundamentals, Software Engineering

**Our Lady of Sorrows Academy Inc.** — Dolores, Quezon
Senior High School (ABM) and Junior High School, With High Honors — 2017 – 2023

## Experience

**Freelance Shopify Website Project** — Remote/Eastwood, Quezon City
Shopify Developer — September 2026 – November 2026
- Develop a client Shopify storefront with a UI/UX design partner, turning Figma designs into a working store
- Build and customize theme sections and responsive components using Shopify Liquid, HTML, CSS, and JavaScript
- Set up store structure, product collections, and site navigation for the client

**AVERA Capstone Project** — LSPU San Pablo City Campus
Project Lead, Machine Learning Developer, and Frontend Developer — April 2026 – November 2026
- Lead the development team, coordinating tasks and timelines across design, backend, and machine learning work
- Develop a Siamese Neural Network for handwritten signature verification, with explainable AI outputs showing which signature regions drove each result
- Train and evaluate models in Python with PyTorch and TensorFlow on Google Colab
- Build React Native frontend screens and integrate verification results into the Android app

**Freelance Content Creation** — Remote
Content Strategist, Video Editor, and Photographer — 2023 – Present
- Produce short- and long-form content for TikTok, YouTube, and Facebook, adjusting posts based on algorithm analysis
- Handle scripting, filming, editing, and distribution for affiliate and automated channels using CapCut

**Official School Promotional Video Project** — Remote
Solo Creator (Writer, Videographer, Editor) — 2023
- Scripted and produced the official school promotional video, passing multiple rounds of faculty critique for release
- Awarded Special Recognition in Multimedia Arts for outstanding individual contribution

## Leadership & Activities

**Web Design Team, ALGO – LSPU San Pablo City Campus** — San Pablo City, Laguna
Member — 2024 – 2025

- Brainstormed web structure, layout, and visual hierarchy, and designed UIs and front-end layouts for organization and school projects

**Semicolon, Echo (CCS Publisher), and Computer Club** San Pablo City, Laguna
Photographer 2023 – 2024

- Covered organization events, articles, and digital releases with the creative and editorial teams

**Supreme Student Government (SSG)** Dolores, Quezon
Auditor and Photographer 2019 – 2023

- Managed activity budgets and documented student-led events

## Skills & Interests

- **Programming & Web:** React Native, Expo, Next.js, JavaScript, TypeScript, HTML, CSS, Shopify Liquid, Python, C#
- **Backend & Databases:** Node.js, MySQL, MongoDB, Firebase, PostgresSQL
- **AI & Machine Learning:** PyTorch, TensorFlow, Siamese Neural Networks, data classification, AI agents and prompting, Google Colab, Roboflow
- **Workflow & DevOps:** n8n, Ngrok, APIs, OpenRouter, Git and GitHub
- **Multimedia & Design:** Figma, Canva, Photoshop, CapCut, DaVinci Resolve, photography, videography

## Competitions

**iSITE AI Hackathon, Team Ta'Node** Remote
iSITE National IT Skills Competition April 2026

- Placed First Runner-Up as Team Lead and Workflow Architect of a three-person team
- Built DriveMinded, an automated AI workflow that generates three content options for pending car listings
- Routed drafts via Telegram or social media for one-click owner approval

**Batang Techno Hackathon, Team ALGORIZZMS** Batangas City, Batangas
Hosted by CICS Student Council, Batangas State University Alangilan April 2026

- Reached the finals as Team Lead, Mobile Developer, and Pitch-Person of a four-member development team
- Built ResqLine, an emergency management system addressing UN SDG 16: a React Native app for verified citizen reports (photo and GPS) and a Next.js admin dashboard with an ML-enhanced backend
- Directed the project lifecycle and produced the pitch video

## Certifications

| | |
|---|---|
| Introduction to Modern AI – Cisco Networking Academy | Nov 2025 |
| Planning a Machine Learning Project – AWS Training & Certification | Aug 2025 |
| Developing Designs for User Interface & User Experience – TESDA | Apr 2025 |
| Project Management & Technical Design Explorer – IBM SkillsBuild | 2025 |
| Artificial Intelligence Fundamentals – IBM SkillsBuild | Oct 2024 |
| JavaScript Essentials 1 – Cisco Networking Academy | Sep 2024 |
